Nationwide Criminal Records Search

[360 Investigations & Backgrounds, LLC](http://www.360iandb.com) conducts criminal background check investigations on individuals by compiling data from public records. We do not guarantee the accuracy or truthfulness of the information contained in this report, but only that it is accurately copied from these public records. It is possible, due to identity theft, that information, including criminal records, could be inaccurately reported as belonging to the individual associated in this report.

This Nationwide Criminal Background Check includes information on phone numbers, email addresses, street addresses and social media sites from both past and present. Please understand that there is often no identifying information other than a name attached to these public records. Therefore, it is not uncommon to see information in these sections that may belong to another person with the same or similar name. This is not the case in the Criminal Records section because those records do have additional identifying information attached to them such as a date of birth or a social security number. Social security numbers are never shared in our reports.

Because no single resource can find all records for every person, multiple resources are utilized to complete this background investigation. When records are obtained from multiple sources, the formatting of those records may appear differently in this report.

It is possible that criminal records exist in counties or states that have either not digitized their records or they do not offer criminal records publicly. These records can sometimes be obtained by ordering reports directly from the particular county or state and paying their required fees. There is often a wait time to get the records. We may be help obtain these records. Please contact us if you are interested in this service for this individual.
